Exceptions to the minimum and maximum course loads must be approved by the Dean of International and Graduate Studies.

## PART V. STANDARDS FOR CONTINUATION AND GRADUATION

### A. Readmission Standard

702. **Readmissions standard.** The readmission standard for an LL.M. student with a cumulative grade point average below a 2.00 after the second or subsequent semester is the same as under the Academic Policies and Procedures with the exception that ability to pass a bar examination is not a factor in determining readmission.

### B. Graduation Requirements

802. **General Requirements.** To graduate from the College of Law, an LL.M. student must:

1. earn a cumulative grade point average of 2.00 or greater for all graded course work;
2. pass all required courses;
3. complete at least 24 credit hours of law school course work with passing grades, of which at least 20 credit hours were in graded courses. No more than 4 credit hours of "D" grade work can be applied to the 24 credit hours of course work;
4. in the event the student has either been subject to continuation requirements imposed under these regulations or been subject to readmission requirements imposed under these regulations, either has satisfied those requirements, or has been excused from doing so by the Dean, who may excuse the satisfaction of such requirements in compelling circumstances;
5. satisfy all requirements for the degree within the time period specified under § 101.

803. **Additional semester to meet 2.00 grade point requirement.** Subject to § 101 regarding maximum years to qualify for degree, a student who fails to earn a cumulative grade point average of 2.0 upon completion of 24 credit hours of course work may petition the Academic Standards Committee for permission to continue his or her studies for an additional semester. To be permitted to continue, the student must persuade the Committee that the student is capable of successful completion of the curriculum. Such permission shall be granted only in compelling circumstances. In making this readmission determination, the Committee should consider the factors set forth in § 702 for readmission to continue to the second and subsequent year. If the Committee readmits a student, it may impose any conditions it deems appropriate.
