

JANUARY 20 - 22, 2023

The Trial Lawyers Section of the Florida Bar is proud to present the Teachers' Law Symposium on January 20-22, 2023, at the Gaylord Palms Resort Hotel & Convention Center in Orlando, Florida. This program is designed for high school and middle school educators with the purpose of providing attendees, through a variety of presentations and workshops, the tools necessary to assist students to better understand and appreciate the value of our legal system as well as the important roles that the system plays in our lives both at home and at work. We feel it is important for America's future leaders to learn about the legal rights and responsibilities each citizen has as a result of the work of our Founding Fathers and those who followed in their footsteps.

Through our Teachers' Law Symposium, highly respected and experienced judges and lawyers from around the state of Florida, who live and work with the law daily, will share the realities of the practice of law and how and why our justice system works the way that it does to protect our individual rights. Those selected to participate will learn about the inner workings of our court system and the impact it has on our businesses and our individual lives. Participants will be provided all materials as well as Friday and Saturday night accommodations if requested
